ARCTIC CHAIN OIL

Food Grade Ultra Low Temp Chain Oil

Arctic Chain Oil is a food grade, synthetic low temperature chain lubricant, with exceptional lubricity and wear resistance for the food, beverage pharmaceutical and other clean industries.

DESCRIPTION

Arctic Chain Oil is a premium quality food grade fully synthetic chain lubricant for all chain types operating at extremely low temperatures. The synthetic base fluid helps to increase the wet life of the product and to increase the life of the chain.

Arctic Chain Oil is designed for use in extreme low temperatures such as freezers and chillers as well as arctic exterior conditions.

APPLICATIONS

All chain types, wear strip and open lubrication points used in industrial freezers, chillers, external equipment and machinery operating in sub zero temperatures. Suitable for use in Gear Boxes that require a low viscosity oil.

FEATURES AND BENEFITS

- NSF H1 registered Safe to use where incidental food contact may occur
- Fully Synthetic base fluid Long life, extended wet life of oil, protecting the chain for longer
- Thermally stable Operates well at temperatures of -54°C and below and up to 180°C – Pour point -65°
- Superb friction reduction Reduces wear, extends chain life
- High Viscosity Index Retains viscosity at extreme temperatures
- Cost savings Chemically identical to expensive OEM aftermarket roller chain lubricants

TYPICAL PROPERTIES

PROPERTIES	VALUES
Appearance	Clear
Base Oil	Polyalphaolefin
Pour Point	-65°C
Viscosity @ 40°C, cSt	15
Viscosity @ -40°C, cSt	2053
Viscosity @ 100°C, cSt	3
Flash Point	>190°C
