FOOD-TEK CLEAR CHAIN LUBE HI

DESCRIPTION

CLEAR CHAIN LUBE HI is a premium quality food grade synthetic based chain lubricant specially formulated to lubricate drive and transport chains. The durability of the base oil and unique additive package give market leading performance in the widest temperature range, from sub-zero to high temperature. Excellent adhesive properties minimise “fling-off” during use and wash-off by both cold & hot water.

FEATURES AND BENEFITS

- NSF HI registered safe to use where incidental food contact may occur.
- Synthetic base oil, extends lubrication intervals & chain life
- Excellent EP and Anti-wear extend chain life, lowers chain wear
- Medium viscosity fluid penetrates links and pins
- Thermally stable at low, ambient & high temperatures from -43°C to +180°C
- Excellent adhesion - non-drip or fling
- Leaves a thin film that doesn't attract contamination
- High Viscosity Index retains viscosity at elevated temperatures

APPLICATIONS

All chain types, bakery ovens, proofer chains, flight chains, drying oven chains, packaging machinery, pallet lifting chains, and overhead chains.

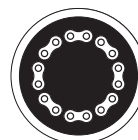

METHOD OF APPLICATION

Clear Chain Lube HI can be applied manually by brush or with oil can. It is most suitable for application via spray or drip feed using automatic lubrication systems. This product does not contain solid additives/particles.

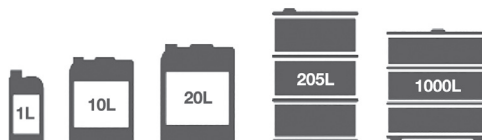

Clear Chain Lube HI is NSF HI registered. The product contains no Allergens, Genetically Modified Ingredients, and does not contain Nut Oil or Nut Oil Derivatives.
