SPRAY GREASE – MULTI-PURPOSE GREASE IN A HANDY SPRAY

**A Non-Toxic, Synthetic, Tacky, Water Resistant,
 High Temperature Aerosol Grease**

DESCRIPTION

Spray Grease Aerosol is a premium quality, non-toxic grease containing extreme pressure and anti-wear additives plus submicron PTFE (commonly known as Teflon) to increase wear resistance and load carrying capacity.

Spray Grease Aerosol is designed as a multi-purpose grease with characteristics that make it particularly suited to applications where a spray applied grease is required. Spray Grease is initially a liquid to aid penetration, the carriers quickly evaporate leaving a durable grease film behind.

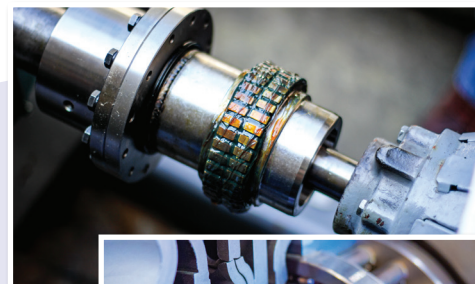

APPLICATIONS

The applications are almost limitless and include: Heavy-Duty applications within many industries and where a clean non-toxic spray type grease is desired. Plain and anti-friction bearings, bushes, slides, gear mechanisms, couplings, cables & winches, taps, hinges, nuts & bolts etc.

FEATURES AND BENEFITS

- Clean Non-Toxic Aerosol Spray
- Fully Synthetic long-life grease, extends lubrication intervals
- Contains sub-micron PTFE for friction reduction
- Excellent anti-wear properties extend component life
- Extreme Pressure properties resist shock loads & increases load capabilities
- Water Resistant – can be used on wet, or saturated components
- Excellent temperature range -50c to +170c

Spray Grease Aerosol comes fitted with the unique “Smart Straw” two way permanently attached spray nozzle. Spray Grease is available in standard 400ml aerosol sprays.

SMART STRAW – 2 Way Spray System
 Permanently attached Straw
