PFPE ULTRA SPRAY

Premium Quality 100% Fluorocarbon Multi-Purpose Spray

DESCRIPTION

PFPE Ultra Spray is a Colourless and odourless, perfluoropolyether (PFPE) medium viscosity oil in a handy aerosol spray. It is totally chemically inert and resistant to all common solvents, it will not migrate and is resistant to radiation. Even when applied in a ultra-thin durable film, it will substantially reduce friction, noise and wear. It is compatible with all widely used elastomers, plastics and metals.

PFPE Ultra Spray is often used in situations where long-life lubrication is required & conventional lubricants are not suitable. It can be utilised in extremes of temperature both high and low and is made of fluorine, oxygen, and carbon. It does not contain any hydrogen and is therefore completely non-flammable.

TYPICAL APPLICATIONS INCLUDE

- Fitting and lubrication of automotive seals and weather-strips
- Anti-squeak and component lubrication on interior trim of vehicles
- Thin film lubrication of pivots, pins, springs, bushings and sliding contacts in a wide range of industries
- Lubrication of all bearings, chains and joints subjected to high temperatures, water and solvents.
- Mould release and ejector pin lubrication
- O ring and seal lubrication
- Both gaseous and liquid oxygen applications
- Electrical contact lubrication

FEATURES AND BENEFITS

- Extends life of seals.
- Compatible with most elastomers
- Will not react with acids, gases or other harsh chemicals.
- Chemically, biologically and environmentally inert and Silicone-Free.
- Contains no VOC materials or chlorine and is not hazardous to the atmosphere or ozone layer
- 100% Non-Flammable
- Unrivalled temperature range -50°C to +300°C
- Undamaged by and non-reactive with acidic or caustic cleaners and disinfectants, steam, moisture and high temperatures
- Easy to use handy 100ml aerosol spray
