

A British Lubricants Company

VALVE LUBRICANT GRS6

Lubricates, Seals, & Protects The Tried, Tested & Proven Valve Lubricant!

GRS6 was formulated to provide exceptional performance across the widest range of well operating conditions, processes and equipment applications.

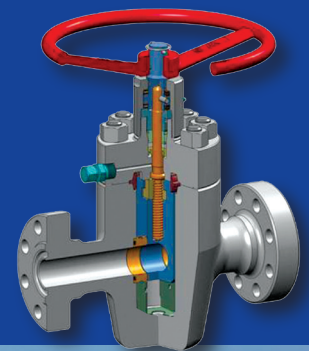

UNRIVALLED PERFORMANCE & PROVEN & MEASURABLE COST SAVINGS

GRS6 is Hydrocarbon resistant therefore its unique chemical composition allows it to resist hydrocarbons in the Valve Cavity without degradation or dilution therefore ensuring the Valve & its critical internal components remain fully functional. In addition the unique sealing properties of GRS6 protect the gate & seat whilst still allowing an optimal seal when closed. GRS6 works well as both a lubricant & a sealing agent.

Customers using GRS6 have found exceptional "Cost Savings" when using this technically advanced product. They include:-

- *Reduction of downtime & unplanned maintenance & in essence increased production*
- *Savings on Replacement Components & Valves etc.*
- *Considerably reduce the amount of Grease used as GRS6 does not degrade*
- *Increased Re-Lubrication Intervals, saving man hours, shipping & storage costs*
- *Seals, Lubricates & Protects*
- *Effective barrier to protect against contaminants during flow back*
- *Good Operating temp range -20°F - 350°F*

Europe • USA • Middle East • Asia

The Brit-Lube Lubricants range of Specialist Petrochemical Industry Lubricants has been developed using the most Technologically Advanced Materials available, and in conjunction with Original Equipment Manufacturers, Major Drilling Companies, Oil Field Operators, & Valve Service Engineers
